# Fnu Tushar

Malvern, PA | (484) 716-7840 | fnu.tushar@outlook.com | Linkedin | Github | Portfolio

## Professional Summary

Data analyst with 5+ years at Oracle and Accenture turning billing and usage data into KPI dashboards for leadership (SQL, Tableau, Python, Databricks). MS in Data Analytics, Penn State (Dec 2026); seeking full-time Data Analyst or BI Analyst roles.

## Technical Skills

**Analytics & BI:** SQL, Tableau, Power BI, KPI Dashboards, Data Visualization, Plotly, Streamlit.
**Data Analysis:** EDA, Data Cleaning, Data Validation, Trend Analysis, Business Analysis, Stakeholder Reporting.
**Programming & Data:** Python (Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn), PL/SQL, Databricks, Delta Lake.
**Statistics & ML:** Regression, Classification, Clustering, Time Series Forecasting, Model Evaluation (AUC-ROC, F1).
**AI & Automation:** LLM Integration (Claude API, Llama 3), Prompt Engineering, NLP (SBERT, VADER), ChatGPT, Julius AI.
**Dev Tools:** GitHub, GitHub Actions, GitHub MCP, Claude Code, Cursor IDE, Jira, VS Code.

## Work Experience

**Barton Malow** May 2026 – Aug 2026
*Intern - Data Science* *Michigan, United States*

- **Developed a FinOps dashboard for leadership** on 3 years of Databricks billing, tracking $146K of spend, showing 85.6% (~$125K) had no owner and flagging 888 of 934 compute resources idle for 90+ days.
- **Analyzed 8,000+ Claude queries from 20+ users** to show leaders AI's share of serverless warehouse spend grew 5.5x (1.5% to 8.3%) in five months, with cost per query as the benchmark.
- **Turned 211 data quality checks into a weekly digest** that gave each stakeholder own flagged records and uncovered a 39% completeness gap that had left business reports understated.

**Pennsylvania State University** Sep 2025 – May 2026
*Research Assistant - Data Science* *Pennsylvania, United States*

- **Evaluated 2022 to 2025 alumni event data** to show revenue per attendee fell in 2024 despite record attendance, steering leaders to pricing and revenue mix while net raised still doubled ($2.7K to $5.4K).
- **Engineered a 5-tab Streamlit analytics app that screens residents against 5 CMS federal rules**, flagging mobility drops over 30% and sedentary spells over 18 hours, and published as a first-authored Springer paper with MyRaina Inc.

**Oracle Corporation** Feb 2022 – Dec 2024
*Staff Data Consultant* *Bangalore, India*

- **Orchestrated automated churn and usage KPI dashboards to leadership** every week, hitting a 99% on-time rate.
- **Reconciled billing data for 600K+ subscribers** with SQL checks and reports, keeping accuracy at 98%+ within SLAs.
- **Led onsite testing for a 15-member team** through a 1-month go-live and reported a declining post-launch bug trend.

**Accenture Solutions Pvt Ltd** Jun 2019 – Feb 2022
*Data Consultant* *Pune, India*

- **Traced and fixed 50+ recurring billing data issues** for 4.5M customers, improving accuracy and customer trust.
- **Automated batch bill-run workflows** in SQL: 1 day to 2 hours (12x faster), manual effort down 92%.
- **Implemented SQL validation checks and exception flags:** discrepancies down 60%, month-end close 10% faster.

## Education

**Pennsylvania State University** Pennsylvania, United States
*Master of Data Analytics, GPA: 3.96/4* *Aug 2025 – Dec 2026*
Statistical Analysis, Data-Driven Decision Making, Predictive Analytics, Deep Learning, Natural Language Processing, AI Ethics.

**KIIT University** Odisha, India
*Bachelor of Technology in Electronics and Instrumentation Engineering, GPA: 3.3/4* *May 2015 – May 2019*
Control Systems, Digital Electronics, OOP, Data Structures & Algorithms, Artificial Intelligence.

## Projects

**Alzheimer's Market Overview: United States** GitHub
*Commercial analytics on U.S. Alzheimer's prescriptions (Sep 2022 to Aug 2025): how brands, specialties and channels shape the market over time, built to guide marketing and sales priorities.*

- **Analyzed 51M TRx data**: donepezil and memantine drive 88% of volume and generics prescriptions make up 99%.
- **Mapped which prescribers drive demand**: internal medicine, NPs, family practice and neurology write 72% of TRx.
- **Built 4 interactive views in Plotly and Tableau**, showing Python suits deep analysis and Tableau suits business users.

**Osteoarthritis Market Visits Share Analytics Pipeline** Live Demo | GitHub
*Early-warning analytics for a knee-injection brand manager on visit share and forecast reliability, hosted as an analytics website plus an AI chat box that answers from a knowledge graph.*

- **Profiled 7.19M+ IQVIA visits across 160 products and 50 specialties** and flagged three data problems (a mis-coded prescriber, miscoded oncology products, a 2024 volume dip) before any analysis.
- **Tested 3 forecasting models over 46 months and showed none beat the "same as last month" rule for national share** (error 0.125 points at 1 month), so the brand manager can plan on last month's value.
- **Delivered a Streamlit Analytics site** where an AI assistant answers brand-manager questions from a sourced 311-node, 827-edge knowledge graph.
